

WORKSHOP SUPERVISOR

New Hope Coal – West Moreton Operation

VAC # 172

The New Hope Group is an innovative, independent, Australian publicly listed mining company operating in the South East Queensland region. We operate three open-cut mines located at New Acland, New Oakleigh and Jeebropilly and work as a group that counts sustainable environmental practices and a non-negotiable safety policy as part of the bottom line.

Jeebropilly mine are seeking a Workshop Supervisor to join the maintenance team to supervise workshop employees ensuring that maintenance requirements are carried out in a timely and cost effective manner.

To be successful in this role you will be a safety conscious team player who is highly motivated with a positive attitude and willing to take on new and exciting challenges. You will also need to be an experienced and effective leader and be confident to manage people as well as business tasks. You are required to hold a relevant trade qualification. Caterpillar and Hitachi experience is an advantage.

We are offering a competitive remuneration package for the successful candidate, with your hard work and dedication also recognised with development opportunities through New Hope's LEAP for Leaders programme. New Hope offers a work environment where your ideas are welcomed and continuous improvement is a part of our everyday business.

This position works on a rotating day/night roster averaging 4 shifts per week. This is not a fly in fly out operation and no accommodation is provided.

Located in the West Moreton Region, Jeebropilly Mine is a 20 minute drive from Ipswich. The mining method used at Jeebropilly is a multi-thin-seam operation utilizing trucks, excavators and front-end loaders. Overburden is blasted or ripped by bulldozers prior to extraction in an environmentally sustainable manner.

Visit www.newhopecoal.com.au and follow the links to the 'Careers' section to apply and find out more about New Hope Coal. Only online applications will be accepted.

Applications close on **5th September 2010**.
